&

as well as for the needs of the Territorial Defense and all those in need in different districts of Kyiv

Volunteer organization Ukraine Alive 2022

We are an association of entrepreneurs who have rallied for the sake of the freedom of our country. We have created a logistics and coordination center to help the population and support our army. We ask for help and support in our work.

There is a need for support:

1. Body armors (ballistic capabilities: NIJ Level IV (ICW) (as light as possible but well protected - for our mobile units that should move in the city buildings, forests and crossed locale space previously);
2. Helmet (Protection: NIJ 0106.01 IIIA)
3. Ballistic glasses - uniform (EU sizes: from S up to XXL) - gloves (L and XL - EU sizes);
4. Copters (unfortunately, our 2 copters had been destroyed together with their operators) example: <https://modelistam.com.ua/ua/geksakopter-yuneec-typhoon-professional-p-34833/> ;

5. Tourniquets - first aid kits for soldiers;
6. Israele bondage (or analogous) - helmets (57-59 cm) - digital radio with constant changing coding;
7. Thermal underwear;
8. Military tablet.

All the previous points - for 1000 person.

Determine the required number of food products per 1,000 people per week
